

Playwright Test Lead Training Demo

By QtpSudhakar

Prepare for the Future of AI-Powered Testing

 Demo: Jan 7 @ 7PM IST

 Batch Starts: Jan 19, 2026

The Testing Industry Has Changed

GenAI moved from experimental to ESSENTIAL in 18 months

2024

AI was *optional*
Nice-to-have skill

2026

AI is *mandatory*
Career requirement

In 2026, NOT having AI skills = Career liability

What Companies Actually Need

Not KNOWLEDGE about AI, but LEVERAGE with AI

Awareness

- ✗ Just knowing ChatGPT exists
- ✗ Surface level AI concepts
- ✗ Passive theoretical knowledge

Leverage

- ✓ Daily AI-powered testing workflows
- ✓ Building Self-healing frameworks
- ✓ Advanced AI debugging & Refactoring

2-3x productivity + 40-60% salary increase

The Learning Paradox

Content is Everywhere. Results are Nowhere.

⚠️ The Problem

- ✗ Millions of YouTube tutorials
- ✗ ₹500 Udemy courses galore
- ✗ Free documentation everywhere

Yet 90% **fail interviews**

✅ The Reality

- ✅ Consuming ≠ Learning (Watching is passive)
- ✅ Knowledge ≠ Mastery (Practice is active)
- ✅ No Real-World Context or Feedback

Mastery = DO, fail, debug, repeat

3 Levels of Mentorship

Level 1: Tell (Most Trainers)

Share information. Passive learning.

Level 2: Guide (Premium Courses)

Show direction. You implement alone.

Level 3: Hand-Hold (This Program)

Work alongside you until mastery!

Transformational learning, not just information

Practice-Driven Methodology

Daily In-Class Practice

- ✓ NOT homework - practice IN class
- ✓ Real-time guidance when stuck
- ✓ Immediate feedback

Collaborative Learning

- ✓ Learn from peer approaches
- ✓ Code review skills (Lead essential)
- ✓ Real team simulation

Every code you write gets reviewed!

4-Stage Lab Progression

1. Warm-up

Guided steps, build confidence

2. Core Practice

Semi-guided with hints

3. Open Challenges

Real scenarios, you design

4. Review & Refactor
